PROFESSIONAL SUMMARY

AI/ML-focused Computer Science student and full-stack developer skilled in Python, computer vision, and modern web technologies, with a track record of shipping production-ready, AI-powered web applications.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, HTML5, CSS3

Frameworks & Tools: Node.js, WordPress, Label Studio, Git

AI & Machine Learning: Machine Learning, Computer Vision, Image Processing, Data Processing, OpenCV

Web Development: Full-Stack Development, Frontend Engineering, Backend Development, Responsive Web Design

Core Competencies: REST API Integration, Cross-Browser Optimization, Agile Development

PROJECTS

Lenis Documentation

- Built a comprehensive **Lenis** smooth-scroll documentation and demo site to help developers implement fluid scrolling faster, featuring **sticky stacked cards**, **horizontal scrolling**, and **GSAP ScrollTrigger** integration.

Plant Disease Detection System

- Architected an **AI-powered** web application that helps farmers and gardeners **diagnose plant diseases** from photos and get instant treatment guidance, using **OpenCV**-based **computer vision** techniques to speed up decision-making.

CalculusPro

- Built a full-featured vanilla **JavaScript** scientific calculator and shipped it as a native **Android** app for fast, on-the-go use, adding haptic feedback via the **Web Vibration API** for a more native feel.

PROFESSIONAL EXPERIENCE

WordPress Developer — **Allied Solutions** | Bhopal, India

Mar 2025 – May 2025

- Created and deployed responsive **WordPress** websites for multiple clients, customizing themes and plugins to meet each client's specific business goals.
- Implemented **frontend** and **backend** features to ensure **cross-browser compatibility** and fast load performance, improving the overall user experience.
- Maintained a **zero-defect delivery** standard across all client projects, strengthening client trust and repeat engagements.

Full Stack Developer — **Parts Drive India** | Bhopal, India

Jan 2025 – Mar 2025

- Designed and developed a commercial product-marketing website that met all client requirements on schedule, directly supporting the client's launch timeline.
- Built a responsive **frontend (HTML5, CSS3, JavaScript)** and **Node.js** backend to deliver seamless navigation and a consistent user experience.
- Optimized website performance and **cross-browser compatibility** to ensure a polished, professional user experience.
- Delivered a stable, error-free application within strict deadlines, meeting every client expectation.

Web Designer — Computer Vision Integration — **DeepSearch** | Bhopal, India

Aug 2024 – Dec 2024

- Co-developed a Google Lens-inspired web application, integrating a **computer vision ML model** into a browser-based UI to enable visual search.
- Built a clean, intuitive **frontend** interface in **HTML**, **CSS**, and **JavaScript** to make machine-learning outputs easy for users to act on.
- Collaborated with teammates using **agile** practices to align **UI/UX** with backend model requirements and ship on schedule.

EDUCATION

Bachelor of Technology — Computer Science & Engineering (AI & ML)

LNCT University, Bhopal | CGPA: 7.75

Class XII (PCM)

Decent English School, Chhatarpur | MPBSE | 87.4% | Mar 2022

Class X

Decent English School, Chhatarpur | MPBSE | 84.33% | Mar 2020

CERTIFICATIONS

- Python Basics — University of Michigan, Coursera
- Data Collection and Processing with Python — University of Michigan, Coursera
- Python Classes and Inheritance — University of Michigan, Coursera
- Python Functions, Files, and Dictionaries — University of Michigan, Coursera
- HTML & CSS Crash Course — Scrimba
